

WARNING

Increase BUI Enforcement Colorado River / Tri-State Region June 26-28, 2009

Boating Under the Influence (BUI) of alcohol is dangerous. In fact, over 20% of boating-related fatalities nationally are a result of alcohol use.

Sun, wind, noise, vibration and motion intensify the effects of alcohol, drugs and some medications. They can slow reaction times, impair vision and lead to boating accidents.

On June 26-28, 2009, agencies from across the country will be participating in a national campaign called **Operation Dry Water**.

Cooperating law enforcement agencies will intensify efforts on the Colorado River and within the tri-state region to detect and remove boat operators who are impaired by alcohol or drugs.

In **Arizona, California and Nevada**, operating a boat with a Blood Alcohol Concentration (BAC) of .08% or higher is illegal. Penalties include large fines and jail time.

Boat Safe, Boat Smart, Boat Sober.
BOAT RESPONSIBLY.

OPERATION DRY WATER
